

Dear All,

Just a quick note to let you know that the diesel engine after more than 1000 hrs of school use has performed flawlessly, no smoke, and tremendous out of the hole. Only a minor issue with the manifold which was taken care of by the people at MarineDiesel. This may be an alternative considering the rising cost of fuel.

If you have any questions or would like to have more information, please let me know.

Saludos

Samuel Hunter
